Quantum Clinical Navigation System

Tobin & Company Investment Banking Group LLC acted as financial advisor to Quantum Clinical Navigation System, a subsidiary of Southeast Anesthesiology Consultants, P.A.

Quantum Clinical Navigation System is a perioperative quality measurement and outcomes reporting tool with both web and paper input capabilities. The tool allows clients to measure over fifty quality indicators (efficiency, practitioner performance, clinical outcomes and patient satisfaction). This provides real time reports and benchmark capabilities allowing our clients to reap dividends in error reduction, optimized outcomes and decreased case delays.
